

The ElevateX Buyer's Guide

*Everything you need to know
about hiring tech freelancers with
ElevateX.*

Who is ElevateX?

We are a highly-qualified team of engineers and designers, striving for productivity and excellence. High-quality output is more important to us than the number of hours put into a product. Consequently, we only work with the best people in their discipline, thereby reducing unnecessary overhead.

Why ElevateX Is The Right Partner For You

Your requirements are at the very core of how we work. We'll find a solution that meets your needs.

We know you want a fast solution. You'll receive the first profiles within 24 hours.

We keep it simple. This means fully-digitalized, legally-secure contracts and billing with flexibility.

We believe in personal relationships. Our tech experts are here to support you with your project.

How To Find Tech Experts With ElevateX

1

We'll analyze your needs and what skills your perfect candidate brings to the table.

2

You'll get a tailor-made match within 48 hours and pick your favorite from pre-selected experts.

3

The collaboration can start! ElevateX assists you during the whole project to guarantee long-term success.

How Companies Benefit from ElevateX

"Since the beginning of our collaboration, the highly qualified team at ElevateX has been significantly involved in the development of our apps. With a proactive, communicative, and fully committed way of working, ElevateX has been laying an important foundation for the success of our projects.

ElevateX is an ideal partner for us."

Alexander Lehsten,
General Manager @ DKB Code Factory
